STATEMENT FROM THE JEWISH COMMUNITY COUNCIL OF MONTREAL

We wish to inform the community that due to the deeply concerning security incidents targeting Jewish community institutions overnight, the Jewish Community Council of Montreal has been in close contact with the SPVM.

The SPVM has asked us to convey to the Jewish Community that they have launched a thorough investigation of the events. They will also be implementing an enhanced security plan to ensure the safety of our community. This plan will be focused on securing Jewish institutions.

The well-being and security of our community members and institutions remain our utmost concern, and we will continue to communicate closely with law enforcement to address these challenges effectively.

As we navigate these challenges together, let us remain steadfast and united, ensuring that our cherished institutions and community remain strong and secure. Remember, *if you see something, say something* - call 911 in the event of anything suspicious.
